

02 April 2015

To whom it may concern:

We have engaged Work at Height (WAH) Assessor/Manager services from Champion Management Services Pte Ltd for one of projects at a clean room FAB from 1st July 2014 to 30th April 2015. The feedback we have received has been nothing but praise from our customers, contractors and colleagues.

The WAH Assessor/Manager assigned has vast knowledge and experience and was able to give useful tips and advises to our team where safety is of utmost concern. To top it off, the WAH Assessor/Manager went out of his original scope of work to help our company review the Risk Assessment documents and Safe Work Procedures with his spare time during the contract period.

We will definitely place high consideration to work with Champion Management Services Pte Ltd again.
